**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 11 August 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1,4,5,7,9-11,16-18,20-29,31-33,37-39,42,45-52,55,56,59-61,63,65-72,74,76,78,80-82,95,102 and 107-112.

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 4, 5, 7, 9-11, 16-18, 20-29, 31-33, 37-39, 42; 60, 61, 63, 65; 72, 74, 76, 78, 80, 81, 82, 95, 102, 107-112, drawn to a method, an article of manufacture, and a system to monitor exposure to selected video-on-demand (VOD) content by determining server/subscriber metering data.

Group II, claim(s) 45-52, 55, 56, 59; and 66-71, drawn to a method, and article of manufacture to generate VOD server metering information to monitor exposure to selected VOD content.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The invention of Group I is directed toward determining correlation between server metering data corresponding to a VOD server and subscriber metering data

corresponding to media content provided to a subscriber site (as further supported by Figs. 3 and 16 of the instant application). The invention of Group II is directed toward generating VOD server metering data (as further demonstrated by Figs. 25A-C of the instant application). In addition, Figs. 16 and 25A-C demonstrate separate and distinct inventive concepts, namely: a method of making a determination based on established metering data in Fig. 16 (corresponding to Group I with a special technical feature of determining if a correlation exists between two sets of data) and a method of generating VOD server metering data in Fig. 25A-C (corresponding to Group II with a special technical feature of generating a VOD session data packet). Groups I and II of the instant application lack unity, *a priori*, as there is no subject matter common to all claims.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
